

REMARKS

STATUS OF CLAIMS

Claims 1 – 6 are pending.

Claims 1 – 6 are allowed.

REMARKS

By the present amendment, Applicant respectfully requests entry of new claim 7, which depends from allowed claim 1.

The amendment to the specification reflects the patent number of one of the applications from which the present application claims priority.

The new claim, claim 7, is a dependent claim, which depends from allowed independent claim 1. New claim 7 is similar to allowed claim 5, but recites a dual bearing motor rather than a single bearing motor. Specification support is found, for example, at paragraph [0036], which states, "the operation of assembling a single or dual bearing motor to a hoist machine comprises first removing the existing motor from the hoist machine."

The drawing amendments are the substitution of formal drawings for all sheets of drawings in the application.

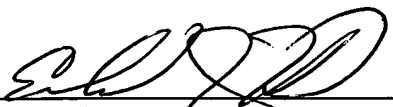

As there is minimal burden on the Examiner, and no need for further search or examination, entry of these amendments is respectfully solicited.

A Request to Correct the Spelling of the Inventor's Name, and an Application Data Sheet, are being filed together with this Amendment.

CONCLUSION

Should there be any questions or outstanding matters, the Examiner is cordially invited and requested to contact Applicant's undersigned attorney at his number listed below.

Respectfully submitted,

Edward J. Howard
